LOCKSMITHS

ABOUT US

A1 locksmiths WA Pty Ltd have been providing locksmith solutions and security to Western Australia since 1985. With a vision to the future we strive towards maintaining our knowledge in the Security Industry and providing our clients with the latest and most update security solutions.

We provide a wide range of Mining, commercial and automotive services which include but not limited to;

- **Isolation & Safety lockout systems**
- **Restricted key systems**
- **Access control**
- **Safes & lock products and installation**
- **Business safety solutions**
- **Automotive keys, locks, repairs & replacements**

Currently we have three workshop locations across Western Australia with locksmiths traveling to remote locations across Western Australia for restricted system installations and support. Our head office / showroom workshop is located in Morley, and two sub- branches located in Osborne Park and Mandurah. We have a very strong team of 20 qualified locksmiths and 4 apprentice locksmiths to produce and dispatch products in the most efficient time frame possible as well as working with all large freight companies to ensure deliveries are monitored from start to finish with each order processed.

We have a very strong support staff and administration team to help with invoicing and scheduling of jobs. We strive on producing high quality security products for our customers as safety is our main focus. All our locksmiths are fully qualified and each hold security licenses approved by WA Police Forensics department. We are members of the Master locksmith's association and have a Master Locksmith degree. Several of our staff are also "SCEC" approved (Security Construction and Equipment Committee).

A1 locksmiths can offer security solutions for mine site lockout padlocks, unique restricted systems and maintenance holding all locks and key records to help you in the most efficient time. We offer preventative solutions to prevent inconvenient breakdowns and failures.
